MANNOL Dexron VI
8207

Универсальное всесезонное синтетическое трансмиссионное масло (ATF) для автоматических коробок передач, гидротрансформаторов, гидравлических систем рулевого управления, гидравлических сцеплений автомобилей и других гидравлических устройств, в том числе работающих в тяжелых условиях в грузовых автомобилях и во внедорожной технике. Обеспечивает бесперебойную работу АКПП, гарантирует минимальный износ, продолжительный срок службы трансмиссий и экономию топлива. Разработано на основании требований концернов GM и Ford.

Свойства продукта:
- Маловязкая синтетическая основа высочайшего качества со стабильно высоким индексом вязкости в комбинации с многофункциональным пакетом присадок сохраняет все свои свойства в широком диапазоне температур: обеспечивает хорошие смазочные свойства при низких (-45 °C и ниже) температурах зимой и обеспечивает стабильную масляную плёнку при экстремальных нагрузках и температурах летом;
- Высокотехнологичная комбинация присадок обеспечивает отличные антифрикционные свойства для зубчатых зацеплений и непревзойдённые фрикционные свойства для фрикционных элементов, что обеспечивает существенную экономию топлива, плавное и четкое без рывков переключение передач в любых условиях вождения и увеличение срока службы самой АКПП и всех элементов трансмиссии. Обеспечивает слаженную и плавную работу сцеплений. Предотвращает задир;
- Обладает термоокислительной и химической стабильностью и стойкостью к высокотемпературной термической деградации на протяжении всего срока эксплуатации. Это позволяет снизить образование шлама, лака, нагара и других углеродистых отложений, увеличить интервал замены масла и обеспечить долговечность деталей трансмиссии, что снижает затраты на обслуживание техники;
- Эффективно защищает от коррозии металлические детали из черных и цветных сплавов (особенно радиаторы) как в процессе работы, так и в нерабочем состоянии. Отлично совместимо с материалами фрикционов;
- Эффективно противостоит аэрации и пенообразованию;
- Обеспечивает отличную совместимость со всеми материалами уплотнений, предотвращает их разбухание, затвердевание и усадку, что позволяет снизить затраты на запчасти и предотвращает утечки. Эффективно защищает фтороэластомерные уплотнения тяжелой техники;
- Снижает шум.

Рекомендовано для АКПП легковых автомобилей, требующих масла качества ATF Type Dexron-VI или Dexron-III H/G/F или Dexron-III E или FORD MERCON LV. Рекомендуется к применению в новых шестиступенчатых АКПП автомобилей GM, BMW, Land Rover, Jaguar, а также в восьми и десятиступенчатых Aisin.

Цвет: красный.

Соблюдайте предписания производителя, указанные в руководстве по эксплуатации!

PACKAGING

1L	MN8207-1	Plastic	20 pcs/box
1000L	MN8207-IBC	Pallet tank	
208L	MN8207-DR	Drum	
60L	MN8207-60	Drum	
20L	MN8207-20	Plastic	
10L	MN8207-10	Plastic	
4L	MN8207-4	Plastic	4 pcs/box
